

Revive Biological Water Quality Enhancer

Revive is a low-cost, highly effective biological water treatment product developed specifically to enhance water quality. The balanced blend of bacteria, bacterial enzymes and nutrients utilizes the available nitrogen and phosphorous in a water body, improving water clarity and reducing organic sediment build up and odors in ponds. Revive is also an excellent product where a biological amendment is needed to extend the use of copper and dye applications. Revive helps re-establish a healthy balanced aquatic ecosystem. It's all-natural and will not harm fish, animals, birds, plants or humans.

<p>Feature Revive was custom-designed for SePRO and is the only biological product recommended for use with Sonar,* Nautique,* and Captain—very compatible with copper algaecides and dyes.</p>	<p>Advantage When Revive is used in conjunction with an algaecide, the bacteria in Revive can remove the large amount of nutrients that are released from the decaying algae.</p>
<p>Benefit: Revive provides longer control with increased treatment intervals.</p>	

<p>Feature The mixture digests suspended organic matter and prevents additional accumulation.</p>	<p>Advantage Revive reduces organic and inorganic matter and existing bottom sludge while helping to maintain higher dissolved oxygen levels.</p>
<p>Benefit: Results in higher water clarity, helps to eliminate “bad” odors.</p>	

<p>Feature Revive can benefit soil and turf grasses by converting available nitrogen into nitrite and later binding with accumulated salts in the soil.</p>	<p>Advantage The converted nutrients are bio-available as a nutrient source to turf while the salts will no longer restrict nutrient absorption by turf roots.</p>
<p>Benefit: Turf irrigated with treated water receives increased nutrient and moisture absorption.</p>	

SePRO Corporation

SePRO Corporation is a national organization with a full line of products devoted to aquatic ecosystem restoration.

A carefully-prescribed aquatic plant management plan featuring the use of SePRO herbicides—backed by a thorough research and development department and a hands-on team of knowledgeable Aquatic Specialists—makes water usable for recreation, brings the fish population back into balance and restores property values.

<p>Feature SePRO has more Aquatic Specialists throughout the U.S. than any other aquatic product company.</p>	<p>Advantage SePRO products are supported by sound technical advice from field experts familiar with native and exotic vegetation.</p>
<p>Benefit: SePRO Aquatic Specialists work with applicators in your area to prescribe a treatment plan unique to your aquatic weed or algae problem. The treatment strategy is backed by years of thorough research, field-trial studies, a high degree of product knowledge and a proven track record.</p>	

<p>Feature Research and Development/Regulatory department.</p>	<p>Advantage Ongoing research and development efforts work to advance the science of aquatic weed control with the latest product technologies.</p>
<p>Benefit: Comprehensive research in the laboratory and field allows SePRO to demonstrate results and maximize each product to its potential. Dedication to actively seeking new products makes SePRO a world leader in advancing the science of aquatic plant management.</p>	

<p>Feature Cooperative research and regulatory efforts and consistent interaction with state regulatory agencies.</p>	<p>Advantage SePRO is recognized by state agencies as a committed, reliable partner.</p>
<p>Benefit: SePRO brings a track-record of long-term aquatic habitat restoration in accordance with local guidelines. SePRO specialists are available to assist with regulations and permitting to expedite the rehabilitation of your waterbody.</p>	

<p>Feature Preferred Applicator Program.</p>		<p>Advantage SePRO has partnered with a nation-wide team of elite aquatic applicators to build an alliance of dedicated professionals well-trained in the effective use of SePRO aquatic plant management products.</p>
<p>Benefit: SePRO Preferred Applicators throughout the U.S. possess insider knowledge of SePRO's products and services. The partnership between SePRO and its Preferred Applicators ensures that the right tool will be used to its potential for the right job.</p>
